

## SPRINGER IS MADE A FEDERAL JUDGE

### APPOINTMENT MADE BY THE PRESIDENT THIS MORNING.

He Is Assigned the Northern District, While C. Buck Kilgore, of Texas, Will Preside Over the Southern District of Indian Territory—Aiken Made Supervising Architect.

Washington, March 21.—President Cleveland has appointed William Martin Aiken of Cincinnati, as supervising architect of the treasury; William M. Springer of Illinois, for the northern district, and C. Buck Kilgore, of Texas, for the southern district federal courts of Indian Territory.

Washington, March 21.—Great Britain must show its hand in regard to Nicaragua, according to the tenor of a communication made to her majesty's government yesterday by Secretary Gresham. It was set forth that statements had been made to the effect that a demand had been made upon the Central American republic for an indemnity. In the event that Nicaragua declined to accede to this demand the United States wants to know just what England purposes to do. There was no beating about the bush, but a straightforwardly interpreted document was cabled across the water to Ambassador Bayard with instructions to lay the matter before the proper authorities. Minister Guzman has not received any intimation from the Nicaraguan government that England has made the demand reported, and consequently at the legation it is asserted there is no foundation for such a story. All the evidence at the disposal of the Nicaraguan minister is to the effect that Mr. Hatch, in whose behalf the claim for damages is being made, was never connected in any manner with the English consulate at Managua. After their expulsion Hatch and his English colleagues went to the mother country, and it was expected that would be the last they would be heard of in Central America. Subsequently, however, while the Americans who had been caught with Hatch were adjusting matters in connection with their business a general amnesty was proclaimed, and under the provisions of this act it was unnecessary for them to leave Nicaragua, as the Englishmen had done. Consequently they took up business at the same old stand, and the Englishmen could have done so, too, had they remained in Nicaragua. During all these proceedings there was not even a suggestion that Mr. Hatch represented Great Britain either as a proconsul or in any other diplomatic capacity. Under these circumstances the members of the Nicaraguan legation do not see how Great Britain can possibly have an equitable claim for damages against their government.

### MINISTER SAILS FOR HOME.

Envoy to Great Britain Thinks the Trouble Will Be Arranged.

New York March 21.—Senator Barrios, Nicaraguan minister to Great Britain, sailed for Bluefields yesterday on the Panama ship City of Para. Before the departure of the vessel Minister Barrios disavowed all knowledge regarding the alleged demand of Great Britain for \$15,000 (\$75,000) indemnity for the imprisonment of Consul Hatch at Bluefields, and for the appointment of a commission to adjudicate the question of damage to British subjects expelled from the Mosquito reservation.

### MUST "TOE THE MARK."

Spain's Answer to Secretary Gresham's Demands Expected Soon.

Washington, March 21.—Spain's reply to Secretary Gresham's demands, growing out of the Alliance incident, is expected by the administration to reach the state department within twenty-four hours. The authorities have come to the conclusion that sufficient time has elapsed for Spain to have made a full investigation of the insult to the American flag. Unless a reply from Spain is received within that time and unless there are new complications in the Spanish political situation, Minister Taylor will be directed to urge the Spanish authorities to answer Secretary Gresham's demands at once. Their investigation is complete with the report of the Spanish commander and according to state department officials there can be no further excuse for delay. No dilatory tactics will be allowed. Spain must toe the mark and soon, too, or an ultimatum will be sent which will probably call for prompt action on its part.

The Japanese gunboat Tatsuta, according to a dispatch from Aden, was detained there by order of the British foreign office under the foreign-enlistment act, because her captain and crew were British subjects. Moreover, the crew, in view of the neutrality laws, refused to do duty. Prince Komatsu, the commander-in-chief of the Japanese armies, will establish his headquarters at Port Arthur.

### Will Carry Arms.

New York, March 21.—The steamship Alliance, which was fired upon by a Spanish gunboat, will sail for Colon today. A report that she is to carry rifles and munitions of war when she puts to sea was confirmed by the agents of the line. The fact of her so doing, they explained, was not at all remarkable nor in any way sensational. The company acts as carriers of arms to the Colombian government on nearly every trip of its vessels. It is a perfectly legitimate trade and violates no law.

### CIVIL SERVICE A LAW.

Measure Passed by the Illinois Legislature Yesterday.

Springfield, Ill., March 21.—The bill authorizing and allowing civil service reform in the municipalities of the state, conditioned on the approval of the voters of such municipalities, has become a law. The bill was read a second time in the senate Tuesday, passed by an overwhelming vote yesterday, and approved by the governor in the afternoon. The vote was 37 to 12.

In the house the following bills were introduced. Mr. Daugherty—Amending the building and loan association law, providing among other things that the directors may invest the surplus earnings and that a borrower may repay a loan at any time. Mr. Hallock—To amend the Chicago drainage law, being the bill prepared by the representatives of the Illinois river valley. Mr. Lowenthal—To regulate the naturalization of aliens. Mr. McCarthy—To make railroad companies liable for injuries sustained by employees resulting from the negligence of co-employees. The Torrens land transfer bill, with slight amendment, was advanced to a third reading in the senate. The amendment just made leaves the adoption of the system optional with counties of the first and second class. Senator Wall's bill fixing his compensation of members of the general assembly was amended by reducing the amount from \$1,000 to \$800 per session, and advanced to third reading.

Representative Snedeker introduced in the house a bill to establish in every city of 10,000 inhabitants and over and at every county seat in the state a free public employment office or bureau. By establishing in every county seat a bureau of employment Mr. Snedeker expects to draw from the cities the thousands who now go there annually in search of work.

The following bills were also advanced to third reading: Senator Hunt—To fix the rate of interest on school loans, amended by Senator Ford, that the minimum rate of interest shall be 5 instead of 6 per cent. Senator Bogardus—To prevent train robbery; making it a capital punishment to interfere with a railroad train for the purpose of robbing it. Senator Coon—To amend the law establishing and maintaining a system of free schools. Senator Hunter's bill in regard to the assessment of the property of mutual building, loan and homestead associations was made a special order for this morning. Senator Aspinwall's resolution, that after March 26 no more bills should be introduced except by consent, or as reported by committees, met with many objections and was withdrawn. The senate adjourned until 10 o'clock this morning.

## TORNADO AT AUGUSTA, GA.

Many Houses Blown Down and a Number of People Seriously Injured.

Augusta, Ga., March 21.—At 9 o'clock yesterday a tornado descended on Augusta, back of the old Lafayette race course. The first house struck was hurried across McKinnis street and thrown against the house on the opposite side. Its sole occupant, a colored woman, was badly but not fatally hurt. Nothing but the floor of the house was left. In the next house demolished a negro woman and five children were buried under the wreck, but after an hour's hard work were extricated alive, though some of them were badly bruised. In the central southern part of the city a dozen houses were wrecked and all along the path of the storm trees and fences and outbuildings were leveled. A small house was hurled through the roof and into one of the big rooms of the Miller flour mills.

The Central railroad roundhouse and paint shops were badly damaged, and one engine smashed under the debris. It is extraordinary that no lives were lost and that few people were hurt. The entire police and fire forces reinforced by large numbers of citizens are at work on the ruined houses, and those who have been hurt are being cared for at the hospitals.

Beach, one of the assistant doorkeepers. Beach has had the bill in his possession since the night of the riot. He followed the man who snatched it as Private Secretary King fell and rescued it from a grate in the doorkeeper's room, where it was thrown. The bill and veto message are partly burned, the governor's signature not appearing whole in any one place. Beach took the remains of the bill to Secretary of State Owen and was referred to Attorney-General Ketcham. The latter offers no opinion in the matter. It is generally taken that the bill is worthless.

## PASSPORTS FOR TWO.

Spanish and Italian Representatives May Go Home.

Washington, March 21.—Uncle Sam has evidently gone into the recalling of foreign ministers by the wholesale, for it is understood his latest victim in this respect is the Spanish minister, Senor Don E. de Murauga. Strictures by the Spanish envoy regarding the course pursued by Secretary Gresham and the administration in regard to the Alliance case are assigned as the reason for asking his recall, an intimation of which has been conveyed to the American minister of Madrid.

The muddle with the Spanish minister recalls the fact that the secretary of state has also recently had to "call down" the representative of the Italian government for being too hasty about telegraphing to the governor of Colorado regarding the lynching of Italians at Denver, Colo. Marquis Imperiali of the Italian legation made himself a little too officious at the state department in this matter, and the announcement is made that he is to return to his native Italy.

## CLOSE OUR SALOONS BY COUNTY OPTION

### DEA WOULD BE CARRIED IN ROCK COUNTY.

This Was the Statement Made by Attorney T. C. Richmond, of Madison, in an Address Before the Legislative Committee, in Favor of That Idea—Mrs. V. H. Campbell's Talk

"County option can be carried in Rock county, thus closing the saloons in Beloit and Janesville," said Attorney T. C. Richmond, of Madison, made the principal address, he holding that no man who favored home rule would oppose this measure. Home rule was the fundamental theory of our government. The only arguments he had heard against county option were from people who favored state prohibition. He did not believe there was a church or an educational institution in the state that did not favor county option. The bills for courts, etc., rendered necessary by saloons were incurred in the town and the farmers paid the taxes. Politics in all parties had always stood in the way of temperance reform, and he thought that to leave the question to the voters of a county would be the best way to take it out of politics.

In the democratic south prohibition was winning through county option, and it could do the same in the republican north. Nobody expected to carry county option in Milwaukee county, but it could be done in Rock county, and close the saloons in Beloit and Janesville. It could be done in Eau Claire, LaCrosse, Racine and other counties similarly situated. The law would be eminently fair, as it would give each county practical home rule. To say that county option was unconstitutional would necessarily imply that town option was equally so, and we have had that for years.

#### Option Would Be Elevating.

He argued at some length to show that the passage of such a law would not be a delegation of legislative power, but would be merely enacting that when a certain state of facts existed a law should be operative—that state of facts being the majority of the county against license. An option election in a county would be elevating, as it would give the people one chance to vote on principle, instead of politics. No argument could be made against the bill worth the time it would take to make it. To pass it would lift the tax the farmer has to pay for the crime of cities.

Mrs. Via Campbell of Evansville was the representative of the W. C. T. U., backed by the petitions of nearly 8,000 people. There was nothing asked that would compromise the honor of any member. It merely requested that counties should be given the right to vote on a vital question. The speaker then drew a doleful picture of the injury that saloons do to a community, and said she had to come to plead for the children whose lives are being blighted by the sale of liquor. Her address was one of the kind more calculated to appeal to the emotions than to reason.

The committee will give the matter another hearing Tuesday, when the other side will be heard.

#### Bicycle Thoughts.

So far we have kept very quiet on bicycles, and let the "little fellows" do the talking, but now we are ready to say and do something. We will handle the Columbia, Lindsay, Plymouth and Hartford wheels this season, and when we say "handle," we mean that we will have as large a line of wheels on exhibition as is generally seen in the large cities. No one wheel racket here. We buy in large quantities for cash, are no agents and we can make our own prices. A carload of the above named bicycles will be here in a few days. Then come in and see for yourself. We'll make you a price that will compel you to buy.

## TELEPHONE RATES GODOWN

Janesville Included In the Towns Which Get the Benefit.  
Commencing April 1, the patrons of the Wisconsin Telephone company residing at interior points will have the benefit of a reduction of 25 per cent. in the rentals of telephones from the present prices. The toll line charges will also be reduced by putting into effect a lower price for short conversations. At present the charges for toll line conversations are based on five minute talks, and the telephone company has decided to institute a less rate for shorter periods. As most messages over toll lines can be delivered in one to three minutes' talk, this means a practical reduction on all toll conversations.

Speaking of the proposed reduction yesterday, Manager McLeod of the Telephone Company said that it was the result of a consultation that took place recently in New York. At that conference the income from the smaller exchanges was discussed and the conclusion was reached that in order to increase their revenues the charges should be reduced. It was easier, said Mr. McLeod, to reduce the charges in the smaller exchanges of the state, but the expense of the company to a city like Milwaukee and the cost of maintaining the system was too large to admit of any immediate perceptible increase in income from a reduction in the present rates. The annual business rental in interior cities is \$18, and in the future the charge for this service will be \$36. Residence rates will be reduced from \$36 to \$24. On party lines the rates will be as low as \$24 a year for business phones and \$1.25 per month for residences.

## MRS. WEMPLE STARTS A MAGAZINE

Mrs. Emma P. Veeder, of This City, is the Contributing Editor.

"The Dawn and Dusk Magazine" is the name of a new monthly publication issued by Mrs. J. Hamilton Wemple, of Portsmouth, Virginia. Mrs. Wemple is the editor and owner, while Mrs. Emma P. Veeder, of this city, is the contributing editor. Two articles from the pen of Mrs. Veeder appear in the first number, one being entitled "The Autocrat" and tells of the kindly manner in which Dr. Holmes replied to a request for an autograph; while the other is a continuation of the interesting "Thoughts That Come With The Twilight" series that were a pleasing feature in Mrs. Veeder's former paper, the Sunday Signal. The publication is the only monthly magazine issued in Virginia, and as both Mrs. Wemple and Mrs. Veeder are women rarely gifted in a literary way it will doubtless be a welcome visitor in many homes. The Gazette joins with many Janesville friends in wishing Mrs. Wemple and Mrs. Veeder the recognition that their really excellent magazine deserves.

## TELEGRAPH STUDENTS HOAXED

Brother Scholars Put Up a Job On Them That Worked Well.

Two young gentlemen who are attending Valentine's school advertised in a Chicago paper for two young lady correspondents. Two other young gentlemen who are also attending school read their "ad" and for a joke answered their advertisement. One gave his name as Miss Helen Jacobs and the other as Miss Kittie Carr. After exchanging about half a dozen letters an appointment was made to meet Tuesday evening at 7:30 o'clock on South Main street. The two jokers dressed up as ladies and started out. They met the two gentlemen and introduced themselves as Miss Jacobs and Miss Carr and after walking together several blocks the fraud was discovered. About thirty students were on hand at the unmasking and they had a great time at the expense of the two men who were fooled.

## MANY BILLS ARE IN THAT INTEREST US

### JANESVILLE MEN AND MEASURES TAKE A PART.

The Stationary Engineers' Bill Amended and Reported Favorably—Hon. Pliny Norcross Spoke Against the Franchise Document—Mr. Kimball on Passes—Trustee Scheme Killed.

Janesville men and Janesville measures played quite a prominent part before the state legislature yesterday. A bill has been introduced, and advocated by the Association of Stationary Engineers, and was warmly supported by the Janesville lodge. It was 699 A and the assembly state affairs committee reported it favorably with amendments. The bill provides for a board of examiners of stationary engineers for the licensing of engineers. The bill provides for three examiners, the chief examiner to receive a salary of \$1,500 and the two assistants \$1,200 each. The amendments by the committee exempt engineers of engines in cheese factories, also engineers operating engines of sixteen-horse power or less.

Mr. Kimball spoke on the Hall pass measure, and in opposing the resolution took a unique ground in so doing.

"Why are railroads giving passes to members of legislatures?" he asked. "What is the tendency of legislatures everywhere towards the railroads?" Mr. Kimball said it was well known that the tendency was to antagonize the railroads, despite the fact that to the railroads belonged much of the credit for the prosperity of the people. The railroads, he said, simply surrounded themselves with protection as much as possible against the unjust warfare waged against them. Mr. Kimball thought there was nothing wrong about it.

Mr. Buckstaff's bill, No. 419A, to give municipalities a larger control over franchises and provided that all franchises expire at the end of twenty-one years, was before the assembly committee on cities. It prohibits cities from granting these franchises in the future as perpetual franchises. Captain Pliny Norcross, representing the Northern Electrical association, spoke against the bill. He contended that it would work great injustice to smaller cities and would practically prohibit them from having these privileges. It would tend to keep capital from outside the state and would give an injurious publicity to the affairs of the company.

The assembly, laid on the table after a short debate, Mr. Kimball's bill to allow members of county boards to be trustees of county asylums. The assembly was almost unanimously of the opinion that it was a bad thing to allow officers to audit their own accounts.

## CLEM ELLISON WAS THE WINNER

Defeated Milburn in the Billiard Contest at Chicago Last Night.

Clem Ellison defeated E. L. Milburn at Chicago last night. Both players were a little nervous. Ellison stirred up a little enthusiasm in the fourth inning by a run of 12, composed of several brilliant shots. In the nineteenth inning, when the score was Ellison 73, Milburn 37, the latter put together a choice collection of caroms aggregating 20, and, for the first time during the evening, secured the leadership. The game was then more evenly contested. After the twenty-fifth inning the game was rather slow, the balls rolling far apart, every carom being of the hardest kind of billiards. The two played more with an eye to the future for his opponent than with any effort to count where a position favorably to his adversary might result. As a result the averages were much lower than were expected. The game ended in the fifty-third inning. The score was: Ellison 300, average 5.35-53, Milburn 213, average 45-52.

## JANESVILLE'S HOO HOOS JOLLIFY

Bower City Represented by Al. Schaller and H. S. Gilkey.

Albert Schaller and H. S. Gilkey were in Madison last evening, where they attended a banquet given by the Hoo Hoos. A dispatch from the capital says that the keys of the city have been handed over to the Order of the Black Cat. Had this not been done the cat would have taken the keys by force, and in order to make the best of a bad situation the mayor handed over the keys. The meeting will continue through today and among other business will be the election of new officers. The annual banquet was given at the Capital House last evening and it is said that at least 175 members were present.

## "A Tallow Candle" Tonight.

The Van Dyke-Eaton company will open a three nights' engagement at the Myers Grand tonight at popular prices—10, 20 and 30 cents. An exchange in speaking of the performance says:

"The bill was 'A Tallow Candle' and if the object of its constructor was simply to throw an audience into intermittent paroxysms of laughter and applause, he succeeded in accomplishing his design. Two clever people from whom the company takes its name, lost no time in making themselves prime favorites with the audience. But each and every member of the cast contributed his or her full share towards the production of a satisfactory and enjoyable performance."

## SEE WORKED TOO HARD.

How a Young Girl Was Broken (Down).

Should Not Have Been Allowed To Thus Injure Herself.

But of Course the Best Thing Was Done Under the Circumstances.

Perhaps you think you are not working too hard, but if you feel weak, nervous, tired, fretful, if you have a dull feeling head, sleeplessness, are easily disturbed or excited, you are over-taxing your nerve strength. They are sure symptoms of exhausted nerve power.

Other symptoms soon follow, such as dizziness, trembling, palpitation, dyspepsia, kidney and liver disease, poor blood and cold extremities. They lead to prostration, paralysis, insanity or premature death. Miss Blanche Atwood of Stowe, Vt., got into just this condition. Her mother, Mrs. S. G. Atwood, writes as follows about her wonderful cure:

"About a year ago, my daughter Blanche, from too close application to study, became worn out. Her head was all confused, and at times she was almost crazy. She was terribly nervous and did not sleep well at all.

"She was in a frightful condition, and we worried constantly about her. We were obliged to take her from school, for she was not able to attend. She was completely used up and good for nothing.

BLANCHE ATWOOD.

"A friend who had been cured by Dr. Greene's Nervura blood and nerve remedy, advised us to try it. She commenced using it and almost immediately began to improve. Her nerves grew strong, she slept well and her head became clear.

"She was soon entirely cured of all her troubles and was in perfect health. The medicine benefited her general health also, as she was much better and stronger than before. I recommended Dr. Greene's Nervura blood and nerve remedy to everybody."

If you have overworked in any way and weakened your nerves, or injured your health, you can get well by taking this wonderful medicine. There are thousands of people who are just in this condition. They are not sick with any particular disease, but they are out of order, have weak nerves and tired bodies. They do not eat or sleep well, wake tired mornings, have lost their snap and energy, and work becomes an effort. Such people need Dr. Greene's Nervura blood and nerve remedy. It gives health and strength. It should by all means, be used at this season, for it is the best of all spring medicines.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York city. He has the largest practice in the world, and his grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

## TREE CASE BEFORE THE COURT

Judge Bennett Is Now Listening to an Interesting Suit at Monroe.

Miss Jane Jennings' trees at Monroe interfered with the electric light wires and the linemen cut off a limb or two. Then Miss Jennings sued the company. The case was tried in Justice Abbott's court and the plaintiff was awarded damages to the amount of \$5 which was unsatisfactory to her, so she appealed and Judge Bennett is now hearing the case.

B. H. Bowman, Pub. Enquirer, of Bremen, Ind., writes: Last week our little girl baby the only one we have was taken sick with the croup. After two doctors failed to give relief and life was hanging on a mere thread we tried One Minute Cough Cure and its life was saved. C. D. Stevens.

## JUST SAY "DAN 87" TO GOOD MR. RADWAY

HE'LL SELL GREEN GOODS THAT ARE GREEN GOODS.

He, Like Many Others, Possesses That Much Owned "Only Set of Plates Ever Stolen From the Government" and His Terms Are Liberal—Janesville Firms Offered the Agency.

The new spring style of "green goods" proposition is out. Ball & Bates got one the other day.

"Dan 87" was the mysterious name assigned them by the genial New York gentleman who owned the "only plates ever stolen from the government" and whose chief stock in trade was "honor" and "trust." The circular was accompanied by the usual "clipping" from a New York paper telling how a counterfeiter went free and his product fooled all the bankers. The clipping is a fraud on the face of it and is not attributed to any special paper—it was just a "news-paper clipping."

"Keep this for future reference," is printed on top of the smaller circular and the instructions "send your telegrams, (no letters) to T. Radway, 308 West 135th street, New York city" follows.

"Your pass-word and number is 'Dan 87.' Do not sign anything else," it continues.

"Caution—Be sure you have the numbers (plainly written) on all telegrams after you sign the pass-word 'Dan' otherwise your telegrams will positively receive no attention whatever. The 'figures' are very important. All answers from me will be sent to the same name and address as written on the present envelope—unless otherwise instructed by you.

"Above all things do not sign your name, only your pass word and number, and send all telegrams between the hours of 7 in the morning and 7 at night and over the Western Union Telegraph Company Lines, (if possible) to avoid mistakes, also prepay all messages as it is very important. Should the telegraph operator ask you for your name or address, refuse to give it, simply say, 'My name or address is not necessary.'

"N. B.—Should there be any official notice stamped on this envelope pay no attention to it whatever, as it is put there by the new administration to find out who has got the plates, as they are missing from the treasury. Possession of the original plates is the foundation of my success, and as I have the plates the stamping of this ridiculous notice cannot injure me at all, unless to frighten off some timid agent."

The larger circular tells the correspondent that "this is the chance of your life and the one you have been looking for and if you let it pass, it will never come again. So read carefully and thoughtfully. I have a class of goods which you can handle and make money faster and easier with than you ever have in your life. They come in denominations of \$1, \$2, \$5, \$10 and \$20, and will go anywhere and everywhere and are as perfect as human skill can make them. My terms are: \$300 for \$3,000; \$400 for \$5,000; \$650 for \$10,000; \$1,000 for \$20,000 and \$50,000 costs \$2,000. \$3,000 for \$300 is the very smallest amount I will sell. I will give you the state right if you take \$20,000 or more of my goods. The state right means that I will not sell to anyone else but you in your state, while you remain my customer. I warrant each and every one to be perfect as to paper, coloring, vignette, printing and engraving."

The circular goes on in this way and paints the profits and the ease with which detection is escaped, in rosy hues. The closing sentence is: "I earnestly request that you will treat this matter confidentially; mention it to nobody! If it does not suit you, destroy this letter."

It's a matter of record that no plate was stolen from the government, and Mr. Radway is a fraud, but occasionally he does sell a few strips of wall paper for \$300, so perhaps that eases his conscience.

### THE MONEY ISN'T THERE.

A Pickpocket Who Was Foolish Enough to Steal a Lady's Pocketbook.

"I just swiped a leather, Jim," said a pickpocket to another of his profession.

"Was it one o' them purty ones what the women carries 'round de streets in der hands?"

"Yes, I swiped it when she was lookin' inter er windy."

"If yer'd been in der bizniz as long as I hev yer wouldn't er took it."

"Why?"

"Tain't wuth it."

"A feller might strike a big haul tho' that way some time."

"Not on your life, he wouldn't. I've swiped a load on 'em an' I never got one yit that I could git a beer out on. Dey don't carry money in dem leathers. Dey's only er bluff. Try dat one yer've got and see if it's enny good."

Glancing about warily to make sure that no one was watching him, the pickpocket opened the purse. He found three samples of silkoline, a patent glove buttoner, a card advertising a lotion for removing blackheads from the face, a sheet of flesh colored court plaster, some samples of scrim and Madras, a list of prices of carpets, a circular showing an illustration of a patent hose supporter, a card of small safety pins, two slabs of chewing gum warranted to cure dyspepsia, and a card bearing her address and instructions to take her there if she met with an accident.

"That's all dere is in it," said the man who had "swiped" the pocketbook, as he turned it upside down and shook it, with a look of disgust on his face.

"Didn't I tell yer?" remarked the other. "I've swiped dem tings till I'm tired. Dey're all de same. De women don't carry nothin' but trash in 'em. De money ain't dere, never!"

### THE QUARTZ CRAZE.

A Species of Insanity Which Is Peculiar to Auriferous Regions.

"A man may recover from a crazy desire for gambling or give up whisky after he has been its slave," said a Coloradoan, "but when he goes quartz crazy there is no further hope for him unless he strikes a bonanza. Then his insanity will be none the less intense, but it will not be so pronounced because he will have the means to pursue his passion without undergoing discomfort or creating remark. What do I mean by quartz crazy? Well, it's evident you have never been in the Western country. Where the mountains are piled on top of each other those lunatics abound. A man who is quartz crazy is an individual who catches the mining-fever and becomes convinced that his mission on earth is to find the greatest vein of pay ore ever discovered. In pursuit of his quest he suffers hardships and overcomes more obstacles than did all the knights who ever searched for the Holy Grail. He

will leave home, family, friends and comfort, and all alone, with a meager supply of provisions and a few tools, he will plunge into unknown wildernesses, and when he finds a place that holds out a mineral prospect, he will burrow in the treacherous mountain side like a rabbit, and dig from daylight till dark, expecting with every stroke of his pick to uncover his expected fortune. Nearly every prospector in the West, or the rest of the world for that matter, is afflicted with the malady I have described. Some of them keep up their ceaseless search with every recurring season, and sometimes strike a good thing. In such cases somebody else, the party who has the money to develop the find, reaps the profits.

### Baby Contest.

Interest in the baby contest is increasing every day and new names are being added to the list. If you want your baby entered for the prize send in the name. Fiveshares of stock in the Rock County Building Loan and savings association is well worth making an effort to secure. It means \$500 in money in 1904 only nine years away. The association is one of the best ever organized. Its officers are well known to Janesville people and the stock is as reliable as bank stock. Somebody's baby will receive five shares of the stock the first of June as the result of the Gazette contest.

## THIS DAY IN HISTORY

1816—Pocahontas, celebrated Indian heroine, died at Gravesend, England; born about 1555. Pocahontas was the daughter of Chief Powhatan. She threw herself upon the body of Captain John Smith when the savages were brandishing their weapons to put him to death. By her intercession his life was spared.

FAYRE.

She again saved Smith's life and left her father's camp to live with a neighboring tribe. The English obtained the custody of the maiden, and while on shipboard in Jamestown harbor a romantic attachment was formed with John Rolfe, who married her and took her to England. The union led to a long peace between the savages and colonists. The last days of the princess were saddened by meeting Captain Smith, whom she supposed dead, in London. Rolfe had deceived her in order to win his suit.

1685—Johanna Sebastian Bach, greatest musician of the famous family, born at Eisenach; died 1750.

1806—Benito Pablo Juarez, Mexican statesman of pure Indian blood, born in Oaxaca; died 1872.

1809—Julius (Claude Gabriel) Favre, French Liberal statesman, born at Lyons; died 1880.

1850—General George Crook, noted soldier and Indian fighter, died at Chicago; born near Dayton, O., 1828.

1891—General Joseph E. Johnston died in Washington; born 1807.

The several wards will be entitled to representation as follows: First ward, 7; Second ward, 5; Third ward, 7; Fourth ward, 5; Fifth ward, 3.

The ward caucuses will be called by the several ward committees for Monday evening, March 25, at the usual places.

By order of the republican city committee,  
 T. W. GOLDIN, Chairman,  
 Janesville, Wis., March 13, 1895.

## INJUSTICE.

One of the most dastardly instances of injustice on record, occurred in the violation of government contract with the sugar planters of the southern and western states. The planters entered into contract with the United States for the production of sugar, and a license was granted, signed by the secretary of the treasury, authorizing them to do business, and agreeing to pay a bounty of two cents per pound, for a term of years.

Under a stimulus of this bounty much money was spent by the planters to put the home industry on a self supporting basis, and the outlook for the south where sugar and cotton were the only industries, was very encouraging.

When Professor Wilson got to the front, with his theoretical tariff measures, the conditions were changed, and after his notorious bill became a law, the courts decided that the government was not liable for the two cents bounty on sugar, because the law that granted it had been repealed. This decision may be good law, but it lacks every element of good common sense, and to the average mind seems very much like repudiating the liabilities of an estate, because the man is dead who contracted them.

In the case of the planters it has resulted in bankruptcy and untold losses. Ex-Governor Warmoth, of Louisiana, in speaking of the situation recently, said that if the industry was continued at all in his state, that it must be done at the expense of labor and profit. The price of cane will be reduced from \$1.50 to \$2.50 per ton and the price of labor to starvation wages.

He said that the only consolation that the south could get out of it, was in the fact, that it was the death blow to democracy.

He predicted republican success at the spring elections in New Orleans and the formation of a white republican party in the south, that would rapidly develop in strength and popularity. If he is right, and he is in a position to talk from knowledge, the sugar deal is the best thing that ever happened to the south.

Better than all the money that could be made on southern sugar in a generation, is the dawn of better days that come with the opportunity to reunite the north and south, on a basis that will be as enduring as time.

The era for which the north has patiently waited, since the days of reconstruction, has dawned with noon-day brilliancy, and already the governing principles of a common brotherhood are recognized and appreciated. All through the south, like the Macedonian cry, is heard the invitation "Come and help us" and the north is cheerfully responding.

Alabama offers large tracts of fertile land, at a nominal price and on long time, to northern colonies. Maryland is raising funds to transport Nebraska sufferers to a better state and set them up in business.

Northern capital and enterprise are

making wonderful strides in developing the long neglected resources of the south, and southern hospitality accords a generous welcome.

The presidential election of 1896 will record a wonderful transformation, and above the din of political strife, will be heard the cheering refrain: "No north, no south, but one country."

The Ironwood Mining Company of which Frank Barrows is secretary, had a monthly pay roll two years ago of \$110,000. They employ the same number of men today for \$55,800 per month, and at that price lost money last year. Cause—too much democracy.

With the markets of the world wide open, our exports of dairy products fell off nearly seven million pounds in the last seven months. That's a howling "change" we have encountered.

The higher the wages the more money will be afloat. A protective tariff means protection to American labor.

There is no way to get a dollar in circulation until some one earns it except to hold up a train and steal it.

Do not confound this music box with the Swiss music box, as the working mechanism of the "Regina" is entirely different; interchangeable metallic tune sheets, unlimited in number, being used, instead of the old time cylinder, which, in every instance, comprises only a small number of tunes, selected, not according to the taste of the buyer, but of the manufacturer, while the "Regina" plays everything known. Stop into F. C. Cook & Co's. and hear it any time during the day.

## CURES OTHERS

Mrs. WILLIAM ROBERTS, Bridgeport, N. Y., writes: "If I had not taken your medicine, I would not be here now. The doctors did me no good, I was just a mere skeleton, could not eat, I would have awful pain in my stomach—pain in my side, bowels and chest; soreness in my back and womb; was weak, nervous, and could not sleep."

After I took your 'Favorite Prescription' and 'Golden Medical Discovery,' I commenced to improve. In two weeks I could walk about the house—could eat—did not have any more pain in my stomach—threw away my morphine powders. When I first commenced taking the medicine it made me feel worse. I was hoarse, could not speak aloud for three days; as I got better my pains and bad feelings left me and I could sleep good; my nerves got better. Before I took your medicine I kept my bed four months—got worse all the while. I am now quite fleshy and can work all day."

## NEEDY MEN'S FLOUR SOLD FOR FREIGHT

NEBRASKA SUPPLIES FINALLY  
STARTED FOR THAT STATE.

Cash Realized Was Used To Pay the Charges on Some of the Clothing and Seed Grain, While the Balance of Janesville's Contribution Was Given to the Associated Charities.

The supplies recently collected in Janesville and Edgerton for the Nebraska sufferers have been disposed of. All the flour has been sold, and the clothing and kindred articles have been forwarded to Nebraska. J. C. Hill, who has had charge of these supplies in Rock county was seen today by a Gazette reporter.

"The Nebraska supplies have finally been sent forward," said he. "We found that the freight charges on the flour contributed would be more than the flour was worth at the other end of the line, and therefore concluded to sell it. With the proceeds we forwarded the clothing and other supplies that had been collected in Edgerton, including the seed grain. We sold the flour that had been contributed here and the other supplies were turned over to the Associated Charities for distribution among the poor of this city, as we did not have money enough to pay the freight to their destination in Nebraska. This is the best disposition than can be made. The season is getting late," he continued "and in order to get any portion of these supplies to the sufferers in time to be of any use, we had to have money, and the sale of flour was the only thing left by which money could be secured. I think the clothing and grain for seed sent from Edgerton will be of use to the sufferers, as they will get the seeds in time for planting. The Associated Charities will no doubt make good use of the supplies we have turned over to them."

An entertainment that would do justice to the Chicago Auditorium, will be given in the first ward by the "Janesville Amateur Minstrels" next Saturday afternoon. The following young men will take the leading parts. Angelo Shattuck, Freddie Baker, Roy Yates, Arthur Dizer and Ross Bump. The Imperial Minstrels might as well take a back seat, for the young men are stars.

In making the great wash goods sale for Friday, March 22, we have in mind one distinct object. To make people go away from our store feeling that when we make a special sale it is a most extraordinary bargain. The 6 cent lot of goods offered for Friday is the best wash goods offer ever made in this city. Bort, Bailey & Co.

## A WOMAN WANTS PAY FOR GOING TO JAIL

MRS. C. J. HANLEY WILL SUE  
THE CITY.

Retains a Milwaukee Lawyer To Commence Action For \$5,000 Damages For Her Arrest and Confinement in a Cell Here—The Letters Written to Chief Acheson and W. G. Palmer

Mrs. C. J. Hanley will sue the city of Janesville for \$5,000.

Mrs. Hanley is the lady who was "detained in jail" as she expresses it, while collecting funds, or taking magazine subscriptions for the benefit of orphan children. The Milwaukee Journal tells her side of the case like this:

"Mrs. C. J. Hanley today took the preliminary steps to bring suit against the city of Janesville, Wis., for \$5,000 damages. Mrs. Hanley alleges that she is the regularly authorized agent of the Children's Home-finder, a paper published entirely by charitable persons, its object being, as indicated by its title, to find homes for homeless children.

"On March 9 last she was at Janesville soliciting aid for the publication, where she was arrested, placed in jail and deprived of her liberty until Monday, March 11. In the meantime she had no opportunity given her to either prove her innocence or give bail. She claims that her arrest was caused by William Palmer, Jr., a charity commissioner. Mrs. Hanley has retained Messrs. Van Valkenburgh & Kershaw of this city, to conduct her suit against the city of Janesville."

Lawyer Writes Letter.

W. G. Palmer, president of the Associated Charities, is the Palmer mentioned. Mr. Palmer has received the following letter from the attorney for Mrs. Hanley and a similar one was received by Chief of Police Acheson:

W. G. PALMER, JANESVILLE, WIS., DEAR SIR: Mrs. C. J. Hanley, representing the "Children's Home Finder," has made complaint that you caused her detention at your city on the 9th inst., and that she was confined in jail until the 11th inst. No cause having been shown for such detention and the arrest seeming malicious in the highest sense of the word, I take the liberty, as her attorney, of writing to ask you what you intend doing in the matter. We shall be compelled to institute civil action against you and others, unless some offer of settlement is made.

Please be so kind as to give me an immediate answer and oblige

F. P. VAN VALKENBURGH.

Chief Acheson's Letter.

The letter sent to Chief Acheson was as follows:

MARSHAL ACHESON, JANESVILLE, WIS. SIR—Mrs. C. J. Hanley complains that you arrested her without cause on the 9th inst., and that she was detained at, and under your direction for two days at the jail in city, bonds, etc., being refused her.

The circumstances of the case seem to point to a malicious prosecution and false imprisonment without doubt.

What can you do in the matter? It is one of much importance to the lady, and some reasonable offer of settlement now may save you much trouble. Yours very truly,

F. P. VAN VALKENBURGH.

## COURT'S JURISDICTION QUESTIONED

New Point Raised in the Case Of Flynn Crowley and Franklin.

The alleged Northwestern car burglars, Franklin, Crowley and Flynn, did not plead to the information filed by the district attorney today as was anticipated. When the prisoners were brought into court Attorney William Smith, who appears for all the defendants presented a motion for the defendants to file a plea in abatement for each of the said defendants to each count in the information, claiming a lack of jurisdiction, whereupon the district attorney requested time to file an answer or demurrer, and Judge Phelps continued the case until 10 o'clock Saturday morning.

## SAVAGE RUNAWAY SPREAD HAVOC

Mr. Whitmore's wagon was also badly wrecked, and the horses somewhat bruised, but no serious damage resulted, although there were a number of narrow escapes.

## G. M. McKEY'S HORSE RAN AWAY

George M. McKey's horse ran away at 7 o'clock this morning, and wrecked the buggy. The animal was being driven by one of Mr. McKey's employees, and when near the Myers house, became frightened at a street car. A quick lunge threw the driver out of the buggy, and overturned the vehicle, after which the horse made a lively run west on Milwaukee street to Jackson, where he was caught.

## DEMOCRATIC VOTES TO COUNT TONIGHT

BUT AFTER THE CAUCUSES  
THEY WILL BE WASTED.

Every Indication That the Primaries This Evening Will Ratify the Ring's Choices and Put 'Em Through Like Geese—Hair Pulling in the Fifth Ward.

Democratic votes will count tonight. After that, well they'll just figure as a matter of form.

Tonight the primaries are held and the untiried will ratify the ring edict. There is little or no opposition to the course mapped out by the managers and all is harmony. However, there may be several minor battles fought as the ring choices were not wholly satisfactory. First ward plans have been kept very quiet and it is supposed that whatever goods the ring ordered for that ward will be delivered.

In the Second ward E. B. Wixom seems to be the choice of the slate makers for alderman, but they say that John W. Richardson may try to break the slate and secure the nomination for himself. There is another faction in the party that may develop, and it would not be much of a surprise if the proposed Fifth avenue improvement should find favor in the democratic camp, in which case Ex-Alderman J. H. Burns may come to the front or possibly C. J. Shottle, who is opposed to the contemplated change.

Third ward democrats have slated a ticket for ward officers which will be presented for ratification this evening at their caucus, and the ticket as now given out is made up as follows: For alderman, Charles A. Roseling; for supervisor, William Gardiner; for school commissioner, Dr. J. B. Whiting.

In the Fourth ward Alderman Fred Kotzman is slated to succeed himself, while Dennis Hayes will probably be the candidates for the short term with Stuart B. Chase a good second.

In the Fifth ward is a merry row. Alderman J. B. McLean and Ex-Alderman James Sennett are engaged in mortal combat and there has been great hair pulling.

P. W. Ryan is said to be slated for street commissioner, while City Clerk Bates may and may not be renominated with chances in favor of his success.

JOSEPH LEITHNER and W. A. Roberts of Freeport, are visiting in the city.

R. R. WINSTON was down from Evansville today.

## BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it. It will buy an education. It will buy a building lot. It will buy a piano and the lessons necessary to play upon it. It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below: The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

## THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A Storm at Sea

Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sickness. They who traverse the "gigantic wetness" should be provided with Hostetter's Stomach Bitters, which quiet disordered stomachs with gratifying speed and certainty. To the harmful influence of a tropic, malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, mariners, miners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, concur in pronouncing it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cold, and it is an efficient defense against all forms of malaria. It can be depended upon in dyspepsia, liver and kidney trouble.

If the Baby is Cutting Teeth, Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The Parting.  
She wept upon his shoulder, but as he had on his linen duster preparatory to going away for a year, the damage amounted to but little.

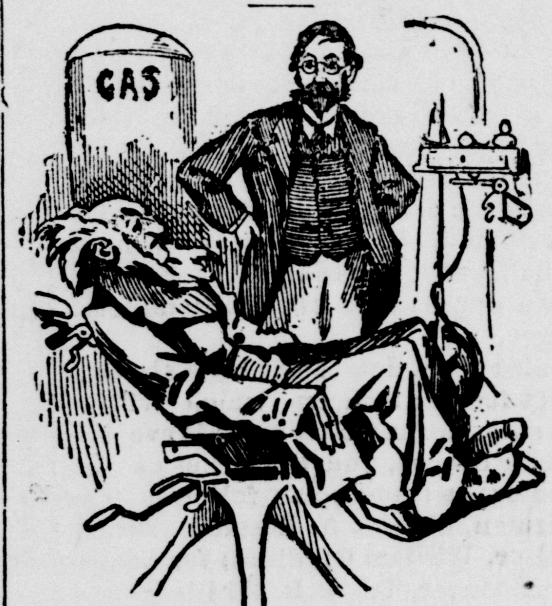

"And shall I find you unchanged when I return, dearest?" he asked.  
"—I—do not know," she sobbed.  
He could feel his hat cracking under the stress of the wave of doubt and jealousy that swept through his brain. He gasped and moistened his parched lips, but could frame not a word. She continued:  
"—I don't know, dear. I cannot tell at this early day what color of hair will be in style then."—Indianapolis Journal.

Expecting Too Much.  
Little Mabel—I don't like my new doll. It doesn't know a thing.  
Little Maud—Why doesn't it?  
Little Mabel—It can't stand up nor sit down, nor hold its arms out, nor anything.

Little Maude—When did you get it?  
Little Mabel—Yesterday.  
Little Maude—Pretty mother you are; expecting a baby to act like a grown doll as soon as it's bought.—N. Y. Recorder.

Inconsistent.  
"A designing man I hate!" cried Nell, with scornful head erect.  
And yet within a year she loved And wed an architect!

### HIS PREFERENCE.

Dentist—Will you have gas?  
Ole Si Tuttle—Wa'al, I s'wore! We don't know much about gas 't hum. I guess you'd better give me ker'sene.—Judge.

A Domestic Crisis.  
Two ladies were conversing together, when one of them remarked:  
"I am troubled with nightmare almost every night."

"Well, I'd rather have the nightmare seven straight nights than do what I've got to do," replied the other, whose husband is a very stingy man.  
"What's that?"  
"I've got to tell my husband that the coal bin is empty."—Texas Siftings.

Thomas Was Right.  
"Boys," said a teacher in a Sunday school, "can any of you quote a verse from Scripture to prove that it is wrong for a man to have two wives?" He paused, and after a moment or two a bright boy raised his hand. "Well, Thomas," said the teacher encouragingly. Thomas stood up and said: "No man can serve two masters." The question ended there.—Boston Home Journal.

One Way Out.  
Sweet Girl—Oh, papa, I have found a way for you to escape the income tax.  
Father—Guess not.

Sweet Girl—Yes; I have. You give half your stocks to Mr. Slimpurse, and then I'll marry Mr. Slimpurse, and so all the money will be kept in the family, and the government won't get a cent.—N. Y. Weekly.

Parental Obligation.  
"George Washington is the father of his country," said one boy, thoughtfully. "Of course he is," replied the other. "Well, I'll bet that he'd feel like takin' his country out in the woodshed if he could see how it's carrying on to-day."—Washington Star.

Found an Angel.  
Husband—Got a new girl, I see.  
Wife—Yes, and she's an angel, too.

"How can you know that? She hasn't been here half a day, yet."

"True; but she tells me that she once lived with your mother, and stood it for three weeks."—N. Y. Weekly.

## A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.  
Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she had taken only three bottles of Nerveine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone. She attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nerveine has brought her."

"When my brother recommended the remedy, I had no faith in patent medicines, and would not listen to him, but as a last resort he sent me a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. E. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nerveine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., receipt of price, \$1 per bottle, six bottles for \$5 express prepaid. It is positively free from opiates or dangerous drugs.

## Visiting Gowns Show Velvet Sleeves In Vivid Contrast to the Bodices.

Every young girl who can contrive to do so should have one or two pretty bright colored dresses exclusively for house wear. They need not be rich or expensive. A clear blue or cardinal cashmere, such as may be bought for 50 cents a yard, made plainly, but tastefully, in some of the many becoming fashions of the day is an excellent investment, and if suitably cared for will last for several seasons. Bright, soft colors and simple styles are the best rule for young girls' gowns. Only ex-

treme youth can bear the clear, solid blues, pinks and reds that are so picturesque and cheerful, and it is a pity not to wear them while it is possible to do so. Later on they must be judiciously toned down, distributed or entirely avoided out of regard to the complexion. Simplicity of style leaves youthfulness to speak for itself, and color keeps that simplicity from being dull.

Sleeves are relied upon to give a "cachet" to visiting gowns. They are frequently made of velvet of quite a different color from the rest of the gown, rose, orange or straw being used in a violet or pansy costume, for instance. For trimming bows, lace and heavy embroidery in relief are employed, with beads and spangles of various shapes and colors. These spangles are sewed on tulle or gauze and used for the front of corsages.

The small capote trimmed with flowers is the correct headwear for ceremonious visits. The crown is embroidered with gold beads or colored spangles. For children and young girls the immense Gainsborough hat is favored. The illustration shows a visiting gown of embroidered suede satin. An edge of emerald velvet shows at the foot of the skirt, and a girle of emerald velvet forms a large bow with long ends in front. The satin corsage has a full guimp of plain suede faille and a velvet collar edged with black feathers. The sleeves have large velvet puffs and deep cuffs of embroidered satin.

## Dangers That Lurk In the Sleeveless Vests of the Popular Street Gowns.

The fashion of a jacket as dress bodice worn open to reveal a vest is very useful, very pretty and very economical, as much variety can be made by changing one waistcoat for another. But in this very possibility lies a danger. Most of these vests are sleeveless, and unless the wearers have vest sleeves underneath the arm the shoulder joint is exposed to every wind that blows by the jacket fronts falling back. A man has a shirt sleeve inside which protects his arm, but a woman runs considerable risk of taking cold by

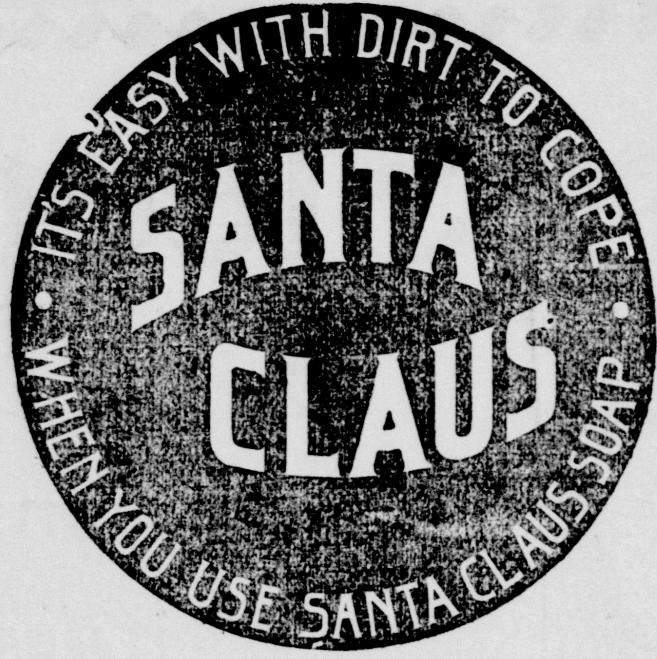

STREET COSTUME.

leaving her arms exposed in this manner. Still worse is what is known as a blouse front, which is a sham of the shammiest description, seldom capable of keeping up a connection with the coat even in appearance and almost valueless as a protection from cold. If women who trust in these treacherous arrangements realized how frequently the collar band of the blouse front slips away from the collar of the coat, leaving a gap through which the uncovered neck becomes visible, they would eschew that article of attire forevermore, for, although the uncovered neck is very pretty when displayed by evening costume, it is incongruous when beheld between the collars of a blouse and a coat.

Many women have an invincible repugnance to long sleeved underwear, even in the winter, and it is these women for whom the coat and vest style is unsafe. If the vest has also an open front, filled by a shirt bosom and scarf, the wearer offers a premium to influenza and pneumonia, which it is astonishing they ever refuse.

The street costume of which an illustration is given is made of heavy cloth and is cut in princess fashion in the back. The sides of the skirt fasten with cut steel buttons over a plain tablier, and the foot of the skirt is decorated with an applique design in heavy velvet. The plain, crossed front of the bodice fastens on the left side with a steel button. A wide collar covers the shoulders and opens over a plain plastron. The tight sleeves are cut in a point over the hand and have an immense puff above the elbow. Sleeves and bodice have a velvet decoration like that on the skirt.

### Warning to Expectant MOTHERS.

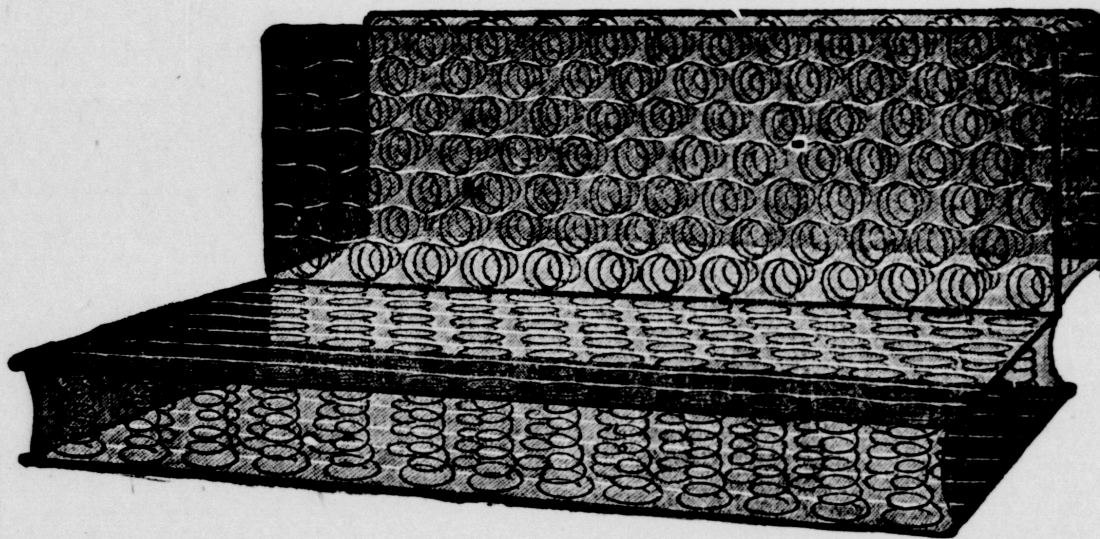

Many internal remedies are being skillfully  
and gloriously advertised, professing to Shorten  
Labor, Lessen Pains of Child-birth,  
etc., and with wonderful inconsistency to regu-  
late menstruation. Common sense should  
teach any woman that a preparation adapted  
for MENSTRUAL DISORDERS will not  
prepare the system for Child-birth; on the  
contrary, internal remedies at this time  
imperil her life. We earnestly say NEWARK,  
of all such: they cannot, at this critical  
period, do any possible good, and their use  
may prove fatal. It is only by persistent EX-  
TERNAL treatment while enacting, thus relax-  
ing and softening all the parts, that the hour  
of Child-birth is robbed of its terror; and no  
remedy on earth does this but "MOTH-  
ER'S FRIEND." For further infor-  
mation address

### FOR SALE

### A Model Milling Plant.

The recent death of the owner makes the sale  
of this plant necessary. It consists of a flouring  
mill, packing-storage house and two elevators.  
The mill is 600 feet, four stories and basement  
constructed of stone, brick and frame, the frame  
part being iron clad. Capacity 300 barrels per  
day. The storage-batching house is 30x120 feet  
two stories. The elevators each have a capac-  
ity of 30,000 to 50,000 bushels. A branch railway  
track runs between the mill and packing stor-  
age house. This plant was ALL removed and  
made new in 1894. The business of this plant  
has paid the owner, up to his death, from \$800  
to \$20,000 per year. This plant cost over \$40,000  
and is the finest one in the northwest. It is run  
by water power and situated in Janesville, Wis.  
except the large elevator which is at Lake Pres-  
tor, Wis. There is a cement-works and it will  
be sold upon easy terms or can be exchanged  
for first-class real estate.
